Anti-intrusion alarm	√
Remote control and management	√
Automatic opening in case of power cut	√
Function for remote opening by authorized personnel	√
Interface for connection with security system	√

## Complete the solution with: Handrails

Railings are the ideal complement to the turnstile for the access and/or exit control. Limit the space and direct users towards the turnstiles or barriers with high quality stainless steel handrails

Configure your railings by adding sections of 1m length
